Experiment 8

User Management and Role-Based Access Control in Zoho Creator

Aim

To implement User Management and Role-Based Access Control in Zoho Creator to manage users, assign roles and control access to the features and data of the Student Admission Enquiry Management (Advanced Edition) application.

Procedure

1. Log in to Zoho Creator using the administrator account.

2. Open the Users page from the Manage section.

3. Click Add User and enter the email addresses of admission-office users.

4. Verify that each user appears with the correct name, email and status.

5. Add users to the Student Admission application with the required role and permission.

6. Deactivate users who should no longer have access.

7. Open the user details panel and verify the assigned application, role and permission.

8. Test the application using different roles.

Roles Planned for the Student Admission Application

Role	Who	Access
Admission Manager	Admission-cell manager	Full access; reports, exports, approvals and dashboards
Admission Counsellor	Counselling staff	Add/edit enquiries; view applicant records and counselling details
Document Verification Staff	Verification staff	View applicant records; verify marksheets and school details
Accounts Staff	Fee-processing staff	View fee fields; verify paid amount and net payable
Applicant / Parent	Prospective student / guardian	Submit enquiry and view own submitted details

Planned Users (Sample)

User	Email (sample)	Role	Permission
Admission manager	manager@example.com	Admission Manager	Full access
Counsellor	counsellor@example.com	Admission Counsellor	Add / edit
Verifier	verifier@example.com	Document Verification	View / verify
Accounts	accounts@example.com	Accounts Staff	Fee view / verify

Role-Based Access Flow

Figure 8.1: Role-based access in the Student Admission application

Super Admin	**Admission Manager**	**Counsellor / Verifier**	**Accounts**	**Applicant / Parent**

Role Tests

Login As	Action	Expected Result
Admission Manager	Open full enquiry report and export	Allowed
Counsellor	Edit enquiry details	Allowed for permitted fields
Document Verifier	Edit fee amount	Not allowed

Login As	Action	Expected Result
Accounts Staff	Edit student academic details	Not allowed
Deactivated user	Log in	Access denied

Result

User Management and Role-Based Access Control were configured for the Student Admission Enquiry application with permissions matched to admission-office responsibilities.
