Experiment 8

USER MANAGEMENT & ROLE-BASED ACCESS CONTROL

Aim

To implement User Management and Role-Based Access Control (RBAC) in Zoho Creator to manage administrative users, assign roles, and control access permissions across the features and data of the **Application Form Management System**.

Procedure

1. Log in to Zoho Creator using the administrator account.
2. Open the **Users** section from the **Manage** application settings menu.
3. Click **Add User** and enter the email addresses of application reviewers and processing staff.
4. Verify that each user appears in the user list with their name, email, and active status.
5. Assign users to the Application Form System with their appropriate role and permission level.
6. Deactivate users who no longer require access to application submissions.
7. Open the user details panel to confirm assigned permissions and role configurations.
8. Log in with different user credentials to test access rights and restriction policies.

Roles Planned for the Application Form System

Role	Assigned To	Access Privileges
Admission Manager	Admission-cell Manager	Full access: view/edit reports, export data, manage approvals, and view dashboards.
Admission Counsellor	Counselling Staff	Add and edit application records; view applicant profiles and counselling notes.
Document Verification Staff	Verification Staff	View applicant records; verify marksheets, identity certificates, and school details.
Accounts Staff	Fee-processing Staff	View fee fields; verify paid amounts, fee waivers, and net payable balances.
Applicant / Parent	Prospective Student	Submit application form and view own submitted record and status.

Planned Users (Sample Setup)

User	Email (Sample)	Role	Permission
Admission Manager	manager@example.com	Admission Manager	Full Access
Counsellor	counsellor@example.com	Admission Counsellor	Add / Edit
Verifier	verifier@example.com	Document Verification	View / Verify
Accounts	accounts@example.com	Accounts Staff	Fee View / Verify

Role-Based Access Control Architecture

Super Administrator

Admission Manager
- Full application report
- Data export & approval
- System dashboard

Counsellor / Verifier
- Edit application details
- Verify marksheets
- Document checks

Accounts Staff
- View fee fields
- Verify payment amounts
- Fee waivers

Applicant / Parent
- Submit form
- View own status
- Restricted view

Role Testing & Verification Matrix

Login As	Action Attempted	Expected Result
Admission Manager	Open full application report and export records	**Allowed**
Counsellor	Edit candidate application details	**Allowed for permitted fields**
Document Verifier	Edit application fee amount	**Not Allowed**
Accounts Staff	Edit candidate academic details	**Not Allowed**
Deactivated User	Log in to application management system	**Access Denied**

Result & Conclusion

User Management and Role-Based Access Control (RBAC) were successfully configured for the **Application Form Management System**. Permissions were validated against administrative responsibilities to ensure data integrity, role isolation, and security compliance across all operations.
